a staff of statisticians and analytical engineers completed a study of international airlines. They charted revenue traffic, daily utilization, passenger load factors in percent revenue passenger kilometers per year, and yearly change in revenue passenger miles in percent over previous years. The figures used for these compilations were obtained from many sources -- commercial publications such as Inter Avia, while traveling or residing in foreign countries, and from reports of the International Civil Aviation Organization.

25X1X

In file in the CIA Library is the compilation of charts on foreign airlines of the world referred to above.
